ABOUT

ECE Student and aspiring Software/Embedded Systems Developer with hands-on experience in React.js, JavaScript, IoT, embedded systems, and TinyML. Experienced in developing AI-powered solutions integrating sensors, machine learning, and real-time communication.

EDUCATION

St. Joseph's College of Engineering Chennai, TN
B.E. Electronics and Communication Engineering (CGPA: 7.99) 2023–2027
Govt Higher Secondary School Pappampatti, TN
Class XII (Higher Secondary Education) – 80% 2023

TECHNICAL SKILLS

Programming Languages: C, C++, JavaScript, SQL (Basics)
Frontend: HTML, CSS, React.js, Bootstrap
Database: MySQL
Tools: VS Code, Git, GitHub, Figma
Technologies: IoT, ESP32, Arduino, TinyML, Bluetooth Low Energy (BLE)

INTERNSHIPS

Softorix Technologies Pvt Ltd Chennai, TN
Full Stack Developer Intern Dec 2025 – Jan 2026

- Trained in full-stack workflows with focus on client-server architecture and web application development.
- Developed responsive frontend modules using JavaScript and Bootstrap with API integration.
- Gained hands-on experience in API handling and modular web component development.

Shiv Prema Industries Chennai, TN
3D Printing Intern May 2025 – June 2025

- Operated SLA and FDM 3D printers for industrial prototype development.
- Used slicing software to optimize CAD models for material and print-time efficiency.
- Performed post-processing including support removal and UV curing, and assisted in troubleshooting print failures.

PROJECTS

SmartCare – Hospital Management System Jan 2026
React.js, Bootstrap

- Developed a responsive hospital management web application with separate dashboards for Admin, Doctors, and Patients.
- Implemented appointment forms, navigation workflows, and mobile-first responsive design using Bootstrap Grid.

GenomicShield AI – Secure DNA Diagnostics Apr 2026
AES Encryption, DNA Analysis

- Developed a secure healthcare application for DNA analysis and ransomware detection with user authentication.
- Implemented AES encryption to protect sensitive healthcare data.

AI-Powered Smart Glove – Sign Language Translation Sep 2026
ESP32, Flex Sensors, MPU6050, TinyML, TensorFlow Lite

- Developed a wearable glove using 5 flex sensors and MPU6050 IMU for real-time hand gesture recognition.
- Implemented a 1D CNN TinyML model to classify 36 static gestures and deployed it on ESP32 using quantized TensorFlow Lite.
- Enabled real-time English and Tamil sign-to-text output through Bluetooth Low Energy (BLE).

CERTIFICATIONS

- Bootcamp on IoT Application Development** – NIELIT Chennai (Aug 2025)
- SQL (Basic)** – HackerRank (Aug 2025)
- HTML, CSS & JavaScript** – IBM via Coursera (Aug 2025)
- C Programming** – Infosys Springboard (July 2025)
- Figma Training** – Infosys Springboard (June 2025)

LANGUAGES

English, Tamil
